2019 PRODUCT GUIDE

SYLVANIXDECKING.COM

WHY SYLVANIX?

Sylvanix Decking offers all the beauty of natural wood with the practicality and long life of composite decking.

Enjoy the look and feel of traditional wood decking with minimal maintenance and a reduced environmental impact.

Sylvanix Decking is the modern alternative, offering ageless beauty and endless possibilities to define your style, your space, and your life.

ADVANCED TECHNOLOGY

Backed by a 25 year limited residential warranty and using the latest in advanced technology, Sylvanix reimagines composite decking to provide a high performance product that outlasts the elements and stands the test of time so that you can create your dream deck and build with confidence.

SUSTAINABLE DESIGN

Choosing Sylvanix Decking makes sustainable design easy to achieve. Our composite deck boards are manufactured with 85% recycled content, using less virgin material in the manufacturing process and reducing the amount of waste generated compared to conventional wood decking.

ECO FRIENDLY. LONGER LASTING.

Working with its environmental partners, Sylvanix takes it's commitment to the environment one step further. Sylvanix pledges to plant a tree for every deck board sold.

1 DECK BOARD = 1 TREE PLANTED

For the average backyard deck, that's 40 new trees planted to renew, sustain, and protect the future of our environment.
